

```
1# This file stores all english messages displayed to users.
2# A configuration file consists of text lines (marked by # or !) and lines with KEY: VALUE pairs.
3# Only insert or replace the values after the ':'! Changing the keys will result in malfunctions!
4# All KEYS abbreviate the content in english, look for the original messages_de.properties file for translation reference.
5#-----KEYS-----!=!-----VALUES-----
