

```
#-----
# This file contains information on the applications configuration.
# A configuration file consists of text lines (marked by # or !) and lines with
# KEY: VALUE pairs.
# Only insert or replace the values after the ':'! Changing the keys will result
# in malfunctions!
#-----
# All german translations of text snippets are stored here.
# All KEYS abbreviate the content in english, this is the reference translation.
#-----KEYS-----!=!-----VALUES-----
